# ABOUT US

Maxshine began 17 years ago with the idea that quality and durability must come first in the detailing industry.

With that in mind, we dedicated ourselves to designing and manufacturing the best long throw dual action polishers, pads, and a vast library of products that remain the best in the business to this day. With innovation leading our development in creating quality products, Maxshine has become a trusted brand in the detailing world; with distributors and product sales in more than 100 different countries and regions around the world.

Our dedicated and sincere love for the detailing industry will never change, no matter what circumstances surround us.

BRUSHLESS DUAL ACTION POLISHER

Features

- 1200W brushless motor provide better balance, smoother operation, while maintaining low noise output
- No carbon brushes to replace - brushless motor reduces maintenance and extends polisher lifespan, saving time and money
- Compact and lightweight frame with ample textured grip make it more convenient and comfortable to operate.
- The flat hood design absorbs vibration and enhances control force for smooth handling.
- Combination of a soft start trigger and constant speed system improves polishing effectiveness and efficiency.
- Easily accessible speed dial provides tactile feedback for accurate adjustments and the trigger lock reduces finger fatigue.
- Extra-long, 20-ft power cord with swivel connection offers added durability and 360-degree movement for increased mobility.
- Large side air vents optimize efficient cooling to bolster the machine's durability and longevity.

MAXSHINE polisher accessories are designed to complement the M8S V2.

# MINI CORDLESS POLISHER V2

## Product Introduction

Gain the ability to polish tight areas, complex curves, minute details, and anywhere a full-sized machine cannot. MaxShine's Mini Cordless Polisher V2 allows you maneuver freely and precisely to achieve that perfect finish. The V2 takes the best of the original and boosts it with upgrades.

- Upgrade machined CNC steel counterweight and NSK bearing
- New interior construction adds higher quality and more durability
- LED display: RPM and battery life
- Softer and more ergonomic grip
- Larger and more precise speed controller with anti-slip switch
- Increased torque, better balance, and lower vibration and temperature
- Improved battery quality
- Elevated accessories kit

## Features:

- Lightweight and compact
- Dual Action and Rotary capability
- 1.5" & 2" backing plates included, as well as rotary extension bars
- 2 battery packs provide continuous use

## PACKAGE INCLUDING:

# 550W Long Throw Dual Action Polisher ENHANCED PERFORMANCE

M312

### Features

- **POWERFUL ENGINE:** Maxshine's 12mm orbit 550W DA polisher improves efficiency and guarantees more power and torque on any surface.
- **ADVANCED SYSTEM:** Soft Start for easy use and application. Constant speed control and a CNC Machined Counterweight built in.
- **PERFECT BALANCE:** The perfect balance of the components makes polishing comfortable and vibration free. This ensures an optimum transfer of power to the surface, and makes even hard-to-reach spots accessible.
- **EXCELLENT POWER CORD:** 4m extension to strengthen the power cord.
- **IMPROVED SPEED CONTROL SYSTEM:** Adjustable speed dial from 2000 to 5500 oscillations per minute.

### Technical Data

Art.N°	Disc Size	Orbit	Rated Voltage	Input	Spindle Thread	No Load Speed
M312	75mm, 3-3.5"	12mm	220-240V AC	550W/5A	5/16"-24	2000-5500/min
Included: PU Hook & Loop Backing Plate, Wrench, Carbon Brush, Manual.						

# MINI POLISHING SYSTEM

**MN01** Cable: 1.5m  
Thread: M14

The MN01 is designed to be used in tight areas like car headlamps, fog lights, brake lights, door handles, emblems, glass, interior console panels and other small areas. The universal locking mechanism makes it extremely easy to lock-in all of your favorite accessories. Specifically designed for polishing small areas, the MN01 is proficient in gently removing debris, scratches and other surface imperfections on the recessed areas of your vehicles. A variety of mini-custom accessories are included that allow you to work on different surfaces. It comes ready to connect to a M14 connector - which are the industry standard outputs for rotary polishers.

EXCLUDED  
NO POLISHER

### INCLUDED

- Red Finishing Pad**  
Ø1.5x1cm (3pcs) Ø2.6x1.2cm (3pcs)
- Green Polishing Pad**  
Ø1.5x1cm (3pcs) Ø2.6x1.2cm (3pcs)
- Felt Polishing Pad**

# ROTARY POLISHERS

## 550W Rotary Polisher

### Features

- **POWERFUL:** Maxshine has designed the M550 rotary with a highly-efficient, 550-watt motor to guarantee more power and torque on any surface, making your detailing experience easier and more efficient.
- **ADVANCED:** In the event of overheating, the M550 features an auto shut-off carbon brush to prevent otor damage. All ball bearings are sealed as well for a longer service life.
- **PERFECTLY BALANCED:** The internal components have all been designed and arranged to provide perfect weight distribution for polishing, taking stress off of the user.
- **POWER CORD:** A 4-meter (13") extension cord ensures free range of motion, while reinforcements around the base of the cord guarantee durability.
- **USER DEFINABLE SPEED CONTROL:** Adjustable speed from 1000 to 3500 rpm provides the user the ability to cut quickly and finish delicately.

### Technical Data

Art.N°	Disc Size	Rated Voltage	Input	Spindle Thread	No Load Speed
M550	75mm, 3"	220-240V AC	550W/5A	M14	1000-3500/min
Included: PU Hook & Loop Backing pad, Wrench and Carbon brushes.					
Best for spot polishing, very light!					

## 1000W Rotary Polisher

### Features

- **POWERFUL:** Maxshine has designed the M1000 rotary with a highly-efficient, 1000-watt motor to guarantee more power and resistance to stalling.
- **ADVANCED:** In the event of overheating, the M1000 features an auto shut-off carbon brush like the M550 to prevent motor damage. All ball bearings are sealed as well for a longer service life.
- **PERFECTLY BALANCED:** The internal components have all been designed and arranged to provide perfect weight distribution for polishing, taking stress off of the user.
- **POWER CORD:** A 4-meter (13") extension cord ensures free range of motion, while reinforcements around the base of the cord guarantee a long service life.
- **USER DEFINABLE SPEED CONTROL:** Adjustable speed from 800 to 3300 rpm. provides the user the ability to cut quickly and finish delicately.

### Technical Data

Art.N°	Disc Size	Rated Voltage	Input	Spindle Thread	No Load Speed
M1000	125mm, 5"	220-240V AC	1000W/9A	M14	800-3300/min
Included: PU Hook & Loop Backing Plate, Wrench, Carbon Brush, Manual, Handle, Side Handle.					

# 1200W Brushless Rotary Polisher

## Features

- 1200W brushless motor with precision design to ensure the maximum conversion of energy.
- No carbon brushes to replace -brushless motor reduces maintenance and extends polisher lifespan, saving time and money.
- Compact and lightweight frame with ample textured grip make it more convenient and comfortable to operate.
- The flat hood design absorbs vibration and enhances control force for smooth handling.
- Combination of a soft start trigger and constant speed system improves polishing effectiveness and efficiency.
- Easily accessible speed dial provides tactile feedback for accurate adjustments and the trigger lock reduces finger fatigue.
- Extra-long, 20-ft power cord with swivel connection offers added durability and 360-degree movement for increased mobility.
- Large side air vents optimize efficient cooling to bolster the machine's durability and longevity.

## Technical Data

Art.N°	Orbit	Rated Voltage	Input	No Load Speed
MB1200 Pro	/	220V-230V, 50Hz	1200W	700-3200 RPM
20ft/6m 360-degree Swivel Cable				

# 1300W Rotary Polisher

## Features

- Powerful 1300-watt motor, effectively removes defects quicker.
- No load speed: 600-3200 RPM
- Extra heavy- duty (M14 EU) spindle with spindle lock.
- Polishes and removes swirls, scratches, and defects from all painted vehicles.
- Auto shut-off carbon brushes prevents motor damage.
- Sealed 100% ball-bearing construction provides longer life.
- Soft start with constant Power system, setting with 6 Speed control
- Powder coated rotor and stator for efficient dust protection
- Protection basket for rotor winding against sharp grinding dust

Max OPM:12000

MATERIAL:Imported PU with soft edge which protects the painted surface.

# RO POLISHING EXTENSION SHAFT SET

The Rotary Extension Shafts were designed with detailers in mind to overcome the difficulty of reaching tight and awkward areas, such as round wing mirrors, spoilers sills & bumpers while polishing with a rotary machine. Extension Shafts offer extra clearance to safely polish these areas without the risk of striking the paint. These high quality stainless steel shafts come in a 2", 3", 5" length and are notched to make removal easy, and will fit all M14 backing plates.

7015812  
Made from Stainless Steel

# FOAM FINISHING CONE

The fine and soft sponge tissue can double protect the paint surface.  
It can creat high gloss paint surface while without spiraling traces.  
Particular sponge structure enhances the air flow.  
Better heat dissipation.

7011004 Ø80mm, M8 Red  
Material: Germany Foam

# STORAGE SOLUTIONS

Maxshine's Storage Solutions are an exceptional addition to any garage or mobile detailing set up. The unique, durable construction is capable of mounting large/small Dual Action and Rotary Polishers. For added function, our polisher holders come equipped with a storage compartment to hold power cords and keep them off the ground.

## DETAILING BRUSH HANGER

The ALL-NEW Maxshine Detailing Brush Holder is the next innovative solution in our line of Storage Solutions. Featuring 6 Hooks attached at the base, this Brush Holder is capable of holding an entire fleet of brushes to keep your detailing accessories close and easily accessible! Works great with Brushes, Telescopic Poles, Rakes, Leaf Skimmers, Vacuum Hoses, etc. Keeping your brushes hung assists in the prevention of damaged bristles and contamination, keeping them in working shape and saving you money on replacements!

**H06B**

## DETAILING BRUSH HOLDER

The Ultimate Solution to complement our Trigger Bottle and Brush Holder.

Store up to 10 Brushes at a time in a sturdy, stylish, and sleek designed organizational holder!

### Features:

- Iron Construction
- Wall Mount with Screws Provided
- No Assembly Required
- Sleek Design

**H06A**

## PHONE AND HEADPHONE HOLDER

Tired of carrying your phone, wallet, keys, and headphones around the garage? Well, Maxshine has you covered! Match the style of your Maxshine Storage Solutions with the All New Maxshine Phone and Headphone Holder. Mounts easily and securely to the wall and helps keep you organized and stylish!

Size: 121 x 89 x 217mm  
Maximum Weight: 3.3lbs

**H11**

# CERAMIC COATING HOLDER

The ALL-NEW Ceramic Coating Holder allows users to place bottle s and product on walls, vans, and anywhere your detailing business is conducted! Discover new efficient ways to keep your jobs running smoothly and prevent leaks and wasted materials in the process!

- Features:**
- Wall Mount with Screws
  - Easy Mount
  - Iron Construction
  - Designed to Hold 50ml-100ml Bottles

H03C

# GLOVE BOX HOLDER

Keep your gloves right where you need them. This Glove Box Holder will keep your space clean and organized. It's the perfect accessory for any industry where gloves are used regularly.

- Features:**
- Made of high-quality resistant steel
  - Powder coating finish to provide additional protection against oxidation.
  - Designed to fit most sized boxes of gloves.
  - Keep your gloves right where you need them.
  - Easy wall mounting installation

H13

# SPRAY BOTTLE HANGER

Maxshine's ALL-NEW Trigger Bottle Holder is the simplified, space-saving companion to the Trigger and Brush Holder. Featuring 3 extended slots to place a nywhere from 5 to 6 Bottles at a time, keeping them organized and safe from damage and cracking.

- Features:**
- 3 Trigger Slots-Holds 5-6 Spray Bottles
  - Durable Iron Construction
  - High Corrosion Resistance
  - Corresponding Screws Included

H03D

# FOAM CANNON WALL MOUNT & NOZZLE HOLDER

- Features:**
- No more lost or misplaced nozzles or wands, this holder provides a dedicated spot to keep everything organized.
  - Storage slots for multiple nozzles, wands, connectors, foam cannons, and pressure washer guns.
  - The engraved scales on the nozzle holder make it easy to quickly see the spray pattern of each nozzle at a glance.
  - With extra ports, you won't have to worry about running out of space as your pressure washer accessory collection grows.
  - Easily mounts on your wall and keeps all your pressure washer attachments organized and within reach.
  - Ergonoimic design :The some rubber grommets for Nozzle Holder to no-scratches on nozzle.

Color: Black

# ORANGE PEEL REMOVAL PAD

## 2000 GRIT BLACK DENIM PAD

The Maxshine Black Denim Pad utilizes a unique, aggressive denim material to offer maximum leveling power. This pad is designed to remove heavy orange peel from resprayed (thick) paint systems.

## 3000 GRIT NAVY BLUE VELVET PAD

The Maxshine Navy Blue Velvet pad uses a roped, corduroy velvet that is less aggressive than the Maxshine Denim Pad. This pad is designed to remove orange peel from OEM (thin) paint systems.

# FOAM INTERFACE PAD

Designed for in-between and final sanding involving finer grain. Does not work with interface for rough sanding involving coarse grain and when using sanding fleece.

- 3090075 Ø75mm ( no hole )
- 3099125 Ø125mm ( 8+1 holes )
- 3099150 Ø150mm ( 8+1 holes )

Made with extra-soft foam layer.

## MINI FOAM POLISHING KIT

The Mini Foam Polishing Kit simplifies cutting and buffing on oxidized surfaces in hard-to-reach areas. Remove fine scratches and swirls from painted surfaces that are caused by improper washing and drying techniques. These small pads are an essential tool for small, detailed areas around the vehicle, including near fragile emblems and surfaces.

# WOOL POLISHING PADS

## WOOL CUTTING PAD

Knitted Wool Pads are made from 100% Wool, with strategic manufacturing techniques that produce consistent fiber thickness, height, and density. This technique allows Maxshine Wool Pads to maintain their shape and produce less lint and debris. Premium performance and heat-resistant construction allows the user to preform aggressive scratch and swirl removal while leaving a glossy finish.

**Options:**

- 1. Bevel Edge(Popular)
- 2. Straight Edge.

2061080RW Ø 80x(6+8)mm  
2061125RW Ø 125x(6+8)mm  
2061150RW Ø 150x(6+8)mm

100% Wool

## PREMIUM WOOL CUTTING PAD

Made from 100% Natural Wool, this Premium Wool Cutting Pad uses a strong adhesive to secure wool to the backing of the pad, ensuring less lint and debris on your surface. Excellent cutting & polishing results that remove heavy defects and imperfections.

2063080 Ø 80mm    2063125 Ø 125mm  
2063150 Ø 150mm  
**100% Wool**

## WOOL CUTTING PAD

## GLASS WOOL POLISHING PAD

The Maxshine Glass Wool Polishing Pad provides a flat, textured surface to effectively level scratches and imperfections without leaving a distorted finish. The textured surface allows for faster cutting and efficient, effective results every time. Conveniently attach to a variety of tools based on user preference.

2065080W Ø 80x5mm  
2065130W Ø 130x5mm  
2065150W Ø 150x5mm

2064075RW Ø 78-90x(6+6)mm  
2064125RW Ø 125-150x(6+6)mm  
2064150RW Ø 150-170x(6+6)mm

The Maxshine Wool Cutting Pad is the standard pad design, capable of resisting chemical-based corrosion and providing a heat-resistant breathable foam backing. Made from specifically selected Wool directly from Australia, and the highest quality EVA Foam material to prevent damage to the surface and stabilize the polishing process. For best results, match with Maxshine Compounds and Polishing tools.

# 9” ROTARY WOOL CUTTING PAD

Constructed from 100% Australian wool, MaxShine’s Rotary Wool Polishing Pad provides optimum refinement. Attain ultimate shine and gloss when eliminating marring marks and other minor surface imperfections.

- All natural 100% Australian wool
- 4-Ply twisted wool construction increases longevity
- Wool material allows quick removal of unwanted imperfections
- Recessed cup edge minimizes backing plate contact with surface

2067240

Material: 100% Australian wool  
Diameter: 9 inches  
Wool Length: Approx. 1.5-2in  
Sided: Single Sided  
Attachment: 7” hook & loop

2068240

Material: 100% Australian wool

Wheel Microfiber Wash Pad With Sling

## MICROFIBER WASH PAD

Made from the same material as its Wash Mitt counterpart, the Microfiber Wash Pad is perfect for any car wash, and can even be used to apply waxes and dressings if necessary. Prevent scratches and swirls with the soft and dense fibers, keeping your vehicle shining!

1120004W

# MICROFIBER WASH MITT

The Black and White Microfiber Wash Mitt is designed for multiple uses, including assisting in the washing of bodywork, wheels, wheel wells, tires and grills. The thick-spun strands feature dense fibers that absorb water and soap, making this an ideal mitt for general washing and detailing. The durable construction prevents lint and debris from being discarded during the wash, and will leave a shocking shine upon completion use!

1130004W

# MICROFIBER WASH GLOVES

Maxshine Plush Microfiber Gloves assist in reaching hard to access areas around your vehicle and are great for pre-delivery finishing touches. Easy to see dirt, and easy to replace or clean before starting the next vehicle.

2pcs/ pack

1130005R

# MICROFIBER CHENILLE WASH MITT

Micro Chenille Wash Mitt is 24x17cm with longer microfiber strands to cover more area. You'll be able to work faster, and the long, plump microfibers will hold even more soapy water for superior lubrication. The microfiber fingers agitate the vehicle's surface to release dirt particles and gather them between the deep strands. Loosened dirt will gather in the mitt, rather than being rubbed against the paint.

Note: For the best results, rinse your mitt in a bucket of water before reloading it with soapy water. Micro Chenille Wash Mitt is designed for multiple uses. Use it for washing the bodywork, wheels, wheel wells, tires, and grill. The superior durability of this mitt allows it to hold up to rigorous use.

# CLAY BAR PRODUCTS

## DETAILING CLAY BAR

Clay Bars are an essential tool of the trade, that efficiently remove contaminants from a painted vehicle surface. Contaminants could be Tree Sap, Bug Residue, Tar, Dust, and stubborn Dirt. After cleaning the surface of your vehicle, apply a clay bar (with Maxshine Clay Lube) to efficiently remove any contaminants that create a rough surface and scratches. The final result leaves your vehicle feeling as smooth as glass and brings out the true shine of your paint!

- 2041150P Heavy Grade (Purple) 3x50g
- 2043150W Fine Grade (White) 3x50g
- 2044100G Heavy Grade (Green) 2x50g
- 2042100R Fine Grade (Orange) 2x50g

## DETAILING CLAY TOWEL

Efficiency is key when maintaining a quick timeframe on washing vehicles, which is why Maxshine introduced the Detailing Clay Towel. Easily remove surface contaminants with the advanced, imported rubber polymer coating that achieves smooth, scratch-free results. Rinse after use, and this Clay Towel can be used time and time again.

2043030R Size: 30x30cm

## SYNTHETIC CLAY APPLICATOR

The clay/polymer composition allows for faster decontamination  
Lasts 3 times longer than traditional clay  
Ergonomic grip for comfortable use

204004CA

## MICROFIBER CLAY MITT - FINE GRADE CLAY

Maxshine's Microfiber Clay Mitt uses advanced Polymer Technology to remove contamination from various surfaces without the use of chemicals.

- Faster, Reliable Clay Usage
- Re-Usable on up to 20-50 cars.
- Removes harmful particles from paint without scratching or damaging the surface.

Step 1: Clean off paint surface with water to begin.

Step 2: Apply Microfiber Clay Mitt to car with Wash Shampoo to remove particles.

Step 3: Wipe surface dry and repeat as necessary.

Step 4: Cleaning Microfiber Clay Mitt – Place in water and allow product to soak overnight for dirt to come off naturally.

204003MT Size:21x16cm Weight: 450gsm

## CLAY SPONGE

Clay Sponge is the first step in removing above-surface contaminants from your vehicle's paint, and achieving a smooth, glossy surface. Spend less time with a clay bar and utilize the long-lasting sponge as your essential tool in painted surface protection.

204003CS  
Size:11.2×6.2x3cm

## DA CLAY PAD

The Dual Action Clay Pad is designed to speed up your clay barring process significantly, with advanced rubber polymer technology in place of originally clay bar formulas. This innovative new pad allows for application with the use of a Dual Action Polisher, picking up contaminants far quicker than its predecessors.

# DRILL BRUSH EXTENSION

Drill brush extension is very effective at cleaning hard to reach areas. By adding length and torque to your drill brush you can easily remove deep stains, dust and dirt from the interior of your vehicle and home.

7011021

# FOAM PAD CLEANING BRUSH & PAD REMOVAL TOOL

Foam Pad Cleaning Brush and Pad Removal Tool features an innovative wedge on one end and a brush with semi-stiff nylon bristles on the other. This handy tool can fit into a pocket or belt for quick access during a job. The wedge side allows for easy pad removal, greatly reducing the risk for accidental tears and damage to the pad during removal. The bristles are designed to help you clean your pad safely and easily, no matter if it is still attached to the backing plate or removed and ready for cleaning.

7011029

Material: PP+Polycarbafil+Nylon yarn Size: 165x34.5x13mm

# FOAM PAD CLEANING BRUSH

The Maxshine Foam Pad Cleaning brush is made of polypropylene and nylon bristles that clean and recondition polishing pads. The Ergonomic handle design fits the curve of the hand. The semi-stiff bristles safely and effectively remove excess polish trapped from the pad surface which makes the pad more effective throughout the polishing process.

- Material: PP Handle, Nylon Bristles
- Ergonomic Handle Design
- Keeps your pads conditioned!
- Use on all polishing pads.

## INTERIOR HORSEHAIR DETAILING BRUSHES

Constructed from beautifully stained wood, the Maxshine Interior Horsehair Brush exudes quality without compromising their excellent cleaning abilities. Gentle horsehair is non-marring but provides plenty of structure to ensure proper agitation. Horsehair is uniquely suited for leather, fabrics, vinyl and plastics, or anywhere with a delicate surface.

**7022007** Size: 12x4cm

Hair Length: 2cm Wood Thickness: 1cm

**7033007** Size: 17x5.5cm

Hair Length: 2.5cm Wood Thickness: 1.3cm

Material: Wooden Handle+Horsehair

## LEATHER AND ALCANTARA CLEANING BRUSH

The Leather and Alcantara Cleaning Brush scrubs dust, dirt, and debris from carpets, floor mats, and upholstery. This gentle scrubbing brush is made with an injection molded wooden handle and soft nylon bristle that stand up to years of detailing use. The ergonomic handle transfers powerful scrubbing action into the sensitive fabrics and light stains and contamination in your carpet. Easily scrub and remove light dirt and grime, and pet, mud, grass, or food stains from interior carpets, seats, and floor mats.

**7011007** Size: 12x4x1cm Hair length: 2cm

Material: Wooden Handle + Soft Nylon Bristle

## LEATHER AND TEXTILE CLEANING BRUSH

The durable and ultra-soft boar bristles are designed for heavy cleaning without the risk of scratching your interior. Its ergonomic design and compact size provide the ability to clean hard to reach areas. Safe on leather, alcantara, vinyl, rubber and fabric.

**7012002** Size: 10x3cm

Material: Wooden Handle + Boar Bristle

## DETAILING BRUSH SET

The Maxshine Detailing Brush Set features our most versatile brushes, used for a wide variety of cleaning such as dusting air vents, agitating cleaner used on interiors, and more aggressive cleaning on engine bays and wheels. The strong, yet gentle hairs allow for these brushes to dislodge dirt and grime from practically any surface, and are one of the most popular around!

**704610** 4# (25mm), 6# (30mm), 10# (40mm)

## PREMIUM EXTERIOR DETAILING BRUSH – HARD HAIR

The Premium Exterior Detailing Brush is a more aggressive, strong bristled brush that is still gentle enough to not leave scratches. Designed to clean the dirtiest of areas, to lift dirt and grime that has built up of a long period of time and needs aggressive agitation. Works great on engine bays, fuel doors, and other hard to reach, forgotten areas.

**704628**

6012003    1680D Oxford Fabric

# HEADLIGHT RESTORATION SYSTEM

Foggy Headlights? No Problem! The Maxshine Headlight Restoration Kit is one of our most popular products, allowing the user to fully restore old, faded headlights, increasing the value of their car and restoring full visibility while driving at night.

Designed to restore and maintain all types of smooth plastics and headlights quickly and safely. Headlights will remain clear for up to a year and can be protected using a ceramic coating when finished. Easily remove the yellow, faded build up from years of neglect, and see your car immediately look years younger! The included Restoration System Compound restores clarity after sanding and adds a protective layer to maximize longevity.

**Includes:**

Foam Sandpaper P1000 75mm x 2pcs

Foam Sandpaper P2000 75mm x 2pcs

Foam Sandpaper P3000 75mm x 2pcs

Drill Backing Pad 75mm M6 x 1pc

Ultra Towel 40x40cm x 1pc

Polishing Foam Pad - 3" x 1pc

2oz Cutting Compound & Finishing Polish x 1pc

M312 EXCLUDED

Maxshine recommends pairing the M312 and Headlight Restoration kit together for optimum results.

- Power Vacuum and Air Dry
- Boosts Vacuum Suction
- Durable Construction
- Increases Work Efficiency

Accessories:  
•Vacuum hose 1.8m  
•Vacuum adapter: 32-42mm w/Universal joint

# Technical Specifications

Art.N°	Speed	Air Cons	Overall Length	Net Weight	Air Inlet
ACG002	6000RPM	4.2cfm	12.5 inches	1.1lb	1/4"

NOTE : Can be used as a regular vacuum head when air compressor is not attached.

# CAR AIR CLEANING GUN

ACG001

Lower air consumption and noise emissions, its ability to use less air and operate with less noise. It requires less maintenance and is less vulnerable to wear and tear.

Use with Interior Super Soap to remove grime and dirt. The Interior Super Soap is a low-foaming cleaning agent specially designed for use with Cleaning Tools. It breaks down dirt and grime, removes odors, and contains darkening agents that revitalize vinyl.

# SNOW FOAM CANNON

SMFC001

Material: PP with copper  
Cup Volume: 1L

Requires Pressure: 70BAR - 1000PSI  
Maximum Pressure: 200BAR - 5300PSI  
Maximum Flow: 5.3GPM  
Orifice Size: 1.25mm  
Touchless technology for safe pre-soak detailing.  
Attaches directly to any pressure washer.  
Accurately mix foam detergents to produce a thick, rich foam to lift dirt and debris. Adjustable wide angle spray.  
Made with high quality brass and chemical resistant materials for maximum durability and performance.

# SNOW MASTER FOAM CANNON

SMFC002

Material: PP with copper  
Cup Volume: 1L

The ALL-NEW Snow Master Foam Cannon is a full upgrade from the original, featuring a shorter base for easy free-standing storage and a specialty wide-mouthed head that produces a wide range of foaming options.

Features:  
New Heavy Duty Design.  
Quality Fittings and Durability.  
Maximum Pressure 160 Bar.  
Max Temp 60 Degrees.  
Orifice Size: 1.25mm

# PUMP FOAM SPRAYER

SFS001

Cup Volume: 1.5L

The Maxshine Pump Foam Sprayer does not require a pressure washer, and assists in foaming on the go. Easily clean wheels and exteriors with a few pumps. The portable design allows for easy storage and cleaning when finished.

# LOW PRESSURE FOAM GUN

LPG001

Cup Volume: 1L

This Low-Pressure Foam Gun mixes soap, air, and running water to create exceptionally foamy suds! Attach to a garden hose and remove abrasive dirt particles that can leave scratches and swirls. Turn any car wash into a foam-covered authentic detail!

# COMPOUND POLISH WAX DISPENSER BOTTLE WITH CAP

- Precise Application: Control the exact flow and direction of your car wax or compound for perfect results.
- Reduced Waste: Eliminate wasted product and clogged caps with the easy-to-squeeze dispenser.
- Durable Design: The impact-resistant HDPE plastic protects your bottle from accidental drops and chemical corrosion.
- Multi-Purpose: This versatile bottle is suitable for storing and dispensing a wide range of car care products.
- Freshness Maintained: The attached cap keeps your product from drying out and ensures a mess-free application.

RTS002

Capacity: 250 ml  
Material: HDPE Plastic  
Color: Translucent

# SNOW MASTER FOAM CANNON V2

Ultimate control of foam spray with 360° adjustment capability and smooth lance rotation.  
Easy to maintain!With a pull pin release to access the gauze filter, you can easily clean or replace it as necessary without performing complicated disassembly. Helping to ensure a long and trouble-free service life.  
Can attach to MaxShine 16oz bottles and others with 28/400 thread  
High Transparent bottle helps you achieve perfect dilution.  
Upgraded internal structure, updated tube and filters, resulting in more dense and stable foaming.  
With a 1/4" connection this premium foam lance is ready to attach to almost any pressure washer. The top has a calibrated air intake valve to easily adjust your foam dilution ratio.

## Technical Specifications

# SAND KILLER

Placed in the bottom of a bucket to filter debris and sediments when washing tools like scrub pads or mitts. Improve the finish of your vehicle by keeping your mitts clean. Fits in 3-5-gallon buckets!

- Used to Remove Contaminants from Mitt
- Scrub Pads Against Submerged Filter
- Fits tightly in 3-5-gallon buckets
- Recommended for safest washing experience

**MSK001-G    MSK001-R**  
Size: Fits 3-5-gallon buckets.

# SAND KILLER WITH WASHBOARD INSERT

- Dual Functionality: Filter separates dirt and grit from your wash mitt, while the washboard agitates for a deeper clean.
- Protects Your Paint: By trapping dirt at the bottom of the bucket, you eliminate the risk of scratching your car's delicate finish.
- Clean Rinse Every Time: Rinse your wash mitt on the washboard to ensure a clean application of soapy water on your car.
- Universal Fit: Designed to fit most standard 3.5 to 5 gallon buckets.
- Durable Construction: Made from a strong PP and fiberglass blend for long-lasting use.

**MSK002**  
Material: PP & Fiberglass  
Fits most 3.5 - 5 gallon buckets

BUCKET DOLLIES

Bucket Dollies are an essential accessory to any car wash and detail job! Simple installment of the bucket and easily removable when finished. The 360 Degree Swiveling set of wheels and the included spaces for Spray Bottles and Brushes, allows you to speed up the washing process while increasing mobility and efficiency!

Bucket Capacity: 2.7 - 5 Gallons  
2 Bottle Spaces: 16oz  
5 Brush Spaces

BUCKET DOLLY CONNECTOR

**H12-1**  
Combine Bucket Dollies 2 for a rolling two bucket method!  
Material: Steel

DETAILING WASH BUCKET

Professionals recommend the two-bucket system to guard against wash-induced swirls. Fill one bucket with soapy water and fill the second bucket with clean water. Each time you need to reload your wash mitt, rinse it in the clean water first. Then reload the mitt in the soapy water. This extra step will keep the wash water clean and reduce the amount of dirt you transfer back to the paint.

# MINI HANDHELD CAR DRYER

- The efficient 1.5HP motor increases air temperature, up to 25 degrees above ambient temperature, which provides faster drying
- It's filtered air is ideal for delicate surfaces like paint, chrome, and plastics
- The ergonomic handle optimizes reaching every area in any orientation
- Perfect for removing water out of all the hard-to-reach places like grilles, bumpers, vents, and wheels
- More efficient and powerful, while remaining light weight

Maxshine Mini Handheld Dryer may be light and compact, but it packs a big punch. Ideal for safely and easily drying every bit of a vehicle, it comes with a handy 20ft/ 6M Cord and a choice of 2 nozzles to suit any job.

**Air Filter**  
Filter the air and thicken the filter element to avoid sucking some dust particles into the motor.

**Contactless Drying**  
Stops marring & swirls

**20ft / 6m**  
Professional Cord
